MEMORANDUM

March 18, 1977

TO : FILE
FROM : RICHARD A. SPRAGUE

William F. Illig, an attorney from Erie, Pa., contacted me in Philadelphia this date, advising me that he represents Dr. George G. Burkley, Vice Admiral, U.S. Navy retired, who had been the personal physician for Presidents Kennedy and Johnson.

Mr. Illig stated that he had a luncheon meeting with his client, Dr. Burkley, this date to take up some tax matters. Dr. Burkley advised him that although he, Burkley, had signed the death certificate of President Kennedy in Dallas, he had never been interviewed and that he has information in the Kennedy assassination indicating that others besides Oswald must have participated.

Illig advised me that his client is a very quiet, unassuming person, not wanting any publicity whatsoever, but he, Illig, was calling me with his client's consent and that his client would talk to me in Washington.
