Ex. No. 5227 - CRAWFORD, C.L. Deposition
Washington, D.C. 4-10-64

Dear Hal,

I was pleased to hear from you, but surprised to hear that you were shocked at it but I said as I thought that you could tell it by looking at my face and the way I touched you & talked to you. I guess that for some stupid reason I hoped that you might have felt the same way, stupid of me I know but that just goes to show you that you can't trust yourself. Believe me you I tried to stop it from happening but there is no stopping some things like that. You can lie to your mind but not to your heart. (D-537pc)

CRAWFORD EXHIBIT No. 5227

Well I guess that's enough of this
Foolishness now its got to some thing
of importance. First Congratulations
and Wish of Luck, I Hope you all the
happiness in the world. Had I re. time
really tried to feel like a Cousin but
Saying it is very hard to believe me you
you asked me what I'd been doing
well as I told you I am working here in
a club. It is called the Carosud Club
and to tell you the truth I don't really
care for it But it is a living I would
like to see you real soon But think it
would be best all the way around if
I don't try. But Saying my Heart cries
out against this. If I got what I want
to I'd be back there as quick as I can
But I know that it would be no good.
