Dear John -

Well, we are back in  
New Orleans and happy to be  
back. Lee is his self again after  
the ordeal in New York. It was  
almost a tragedy but a little  
luck and patience did the trick.  
I called you on Monday but  
Marge said to the operator that  
you were no longer at that address  
and could be located at the  
club. I called there and was  
told you were in sick bay.  
Left a message for you to call  
but thought I had better write  
just in case you didn't get  
the message.

Robert is in Korea since Feb

hear from you. After all we  
are your family and we  
are very much. Nothing should  
be as hard as the keep me  
apart. What now

and I have received several  
letters from him but they don't  
seem so good over there. They  
are able to live the base up  
until sundown but recently they  
are not allowed off the base  
at all. Robert said they get  
doped up and build fires in  
the hills and dance and sing  
all night. He always ask  
about you and especially  
when he can write you. In  
fact he has written you but  
no answer. As for myself I  
also have tried to contact you  
without results. Please write  
as we all miss and want to
