

7-26-1952

Dear John -

Was surely glad to get your letter today. Was waiting to hear from you and had to scribble to write you tonight. Boy, you must be in a bad way not getting good grades because you sure like to eat. I don't think losing a few pounds will hurt. What's Margie the same time I wrote you but haven't heard from her as yet. Sure hope she is alright. I'd want to be long now and I know you are both opinion. Want a girl or boy? Two long years now that you have been away from home. By the way, I hope you will be coming home soon either for a visit or better yet to stay. You always have a home

with me and don't forget it. We are all well. John is doing good work in school. If he goes to summer school he will graduate this year. Might be a good thing because it won't be long before he will have to go in the service. Maybe, by that time you will decide what is best for you and Margie. In spring, in fact we only had a very little cold weather. Did you receive my cards? you didn't mention so in your letter. Be good and make the most of your opportunities.   
 John Pic 45B - Much Love  
 P.S. I love you too XOXO  
 Robert Lee both keep smiling when you will be home.

It's really glad to hear  
from you but it doesn't  
seem right that you are  
too busy to write more  
often. I know you had  
your own problems but  
I hope for better. Oh!  
Well, I know you are  
sincerely waiting for  
the baby to arrive and  
it won't be so long now.  
Doesn't seem like nine  
months have gone by.  
The first one usually  
takes about twelve hours  
so get enough cigarettes.  
Signs being from Margie

But they are some things  
I would like to write  
you from time to time  
that I am sure doesn't  
interfere. Be good  
and pray for a good  
healthy baby  
Much love  
Mother
