SYNOPSIS

Bus stops near Oswald's former address,
 1026 Beckley Avenue.

DETAILS OF INVESTIGATION

Reference is made to phone call from Inspector Kelley at 12:15 pm, 7-28-64, in which he requested the location of the nearest bus stop utilized by the southbound bus on the Beckley route. He further requested the information when gathered be called back to him at Washington. This was done at 2 pm, same date.

Other Investigations

On 7-28-64 physical inspection was made of the area surrounding 1026 Beckley. The nearest bus stop was found to be located on the northwest corner of the Zanga-Beckley-Eldorado Streets intersection. The next closest bus stop for southbound Beckley bus was at the intersection of 5th Street and Beckley, one block south of the above intersection.

A sketch of the Zanga-Eldorado-Beckley intersection with southbound and northbound Beckley bus stop is attached.

It is noted that the southbound Beckley bus stops at each intersection on Beckley Ave. traveling south.

It is suggested that because the Eldorado-Zanga-Beckley intersection is wide and heavily traveled and equipped with traffic lights, the southbound bus stop at the intersection of 5th and Beckley would be more convenient to reach, even though it is slightly further from the 1026 Beckley address.
