Date 6/29/64

SA IVAN D. LEE, walking at a normal rate of speed, took the following set out times to cover the distances listed below:

From the counter at the Western Union office at which RUBY transacted business on November 24, 1963, via the eastern exit of the office onto Main Street, west on Main Street to the alleyway located behind the Police Courts Building, south in the alley to the loading platform doors, pass through the elevator and walk down the stairway entering the garage, walk through the auto parking area, crawl through the ramp railing approximately ten feet from where the Main Street ramp levels off and walk to a point where OSWALD was shot -- 189 steps -- 2 minutes, 25 seconds.

From the counter at the Western Union office, leaving the Western Union office via the Main Street exit, south on Pearl Expressway, west on Commerce Street, walk down the Commerce Street ramp leading to the Police Department basement into the police garage area, cross over to the Main Street ramp approximately ten feet from where it levels off by going through the ramp railing and walk to the spot where OSWALD was shot -- 286 steps -- 2 minutes, 50 seconds.

It was noted that the alleyway behind the Police Courts Building is located approximately one hundred forty feet east of the Main Street ramp leading to the Police Department basement.

It was also noted that the route via Pearl Expressway and Commerce Street took only 25 seconds more; however, there were no doors to go through or other obstructions as found when entering the building via the loading dock entrance.

As to the visibility to the base of the Main Street ramp at approximately 11:15 A.M. from the top of the ramp at Main Street, it was noted that the level part of the ramp area can be observed without any difficulty. It was also noted that

as to observation at the base of the ramp from the curbline that most of the level part of the ramp area can be observed from this point.

From standing in a position in the middle of Main Street, it was noted that an area of the basement can be observed from this point; however, the view does not give a person a good view of the level area of the ramp in the basement. It was also noted that from the three different positions it was impossible to observe any activity in the parking area of the garage or observe activity in the hallway leading to the City Jail office.
