Dear Rosie & Dad

How is every thing there?
Dad's work is very heavy
these days. And the den &
I have time to do anything
anymore. We have been
getting up at 5.30 in the
morning and getting in
bed about 11.00 at night.
I have been running
the station while the
work. The boy I had work-
ing for me didn't show
up today so I guess he
won't be back any more.

We got a card in the
mail yesterday. Don said
it must have been about
the text you said you
would send. There sure
must have been a lot of
them. (if that what it was he supposed to
pick them up today.)

Next day: Will Don never
did pick up the package.
Sure hope they didn't send
it back.

I don't know if Don has
told you about this
dog we have or not.
He really pretty, he he
got to go. He how
broke himself (thank goodness.)
The than that he

is a monster always
wanting to play. If you
don't want to play he
hate you. We have
him here at the station
and every car that come
up he runs under it
and I have to get down
on my hands and knees
and get him out. We
have been allowed \$45.00 for
him but Don would take
it.

It's raining here in
Loring and every thing
is so quiet you
cant hear yourself think
trains coming sub
every 30 min. Its his being
Sunday everybody in
a hurry. They going
by so fast they don't
give this place a
second thought.

They are sure having
a lot of trouble with the
Jack Ruby trial these
days. G. Phirinov escaped
day before yesterday. Two
have still not been caught.
They were in the same
jail as Ruby.

I talk to Ralph Ruby partner
in the Bull pen he told me
Ruby wasn't in his right mind
every sense the president had

been shot. -3-

I work for two more week there, I got a tommer that made it imposable for me to work for a week and Donna was sick for a week (lets say I didn't work I was just on payroll.) but when I went back to work she didn't let me have my job back, that when we were going to come to see all of you but we had to spend our saving.

When Don had to go up there it was imposable for us to make a payment on our house and we were already on the line. When Don did get back to work Mr. Harper would let us make up the payments so we are staying at my mother's until we can find an apartment.

He has be so busie the last two weeks and yesterday my brother called and had 10,000 new sheets of rock he wanted him taking.

Don has plains to go hunting this year in Colo. and Fay wants me to come and stay with her while he goes hunting but I don't think I want too.

I barely cost him \$5.00 to get
up there and back on bus.
To be with you. And if thing
work out I know it won't
be hard for me to talk
him into letting me spend
a week with you. That
would give you a change
to see her and the baby,
and to if I went to Colo. and
took the baby I might decide
to go hunting with Don.

Dreams, just watch thing
will probably be suff and
will still have this old station
and things all ways. work out
that I have to stay here and
work while he takes a vacation.

I told him a day or
two ago that I was going
to have to see a brain doctor
if I didn't get away from
this place.

Don just came in and
we are going to class so
I can't think this now.

—Baby, what a relief to
get out of here a little
while.

Don thought it nice
for me to come up there,
but he did say any
thing for sure.

We got the color photos pitues
back. I've taken our antenogram
I'll send the one of the baby and also

-5-
if Don as seen a we have
them redelivered.

We I hope you kind
of find a reading. I sure
I hope it don't take you
as long to read this
as it took me to write
it.

I know I just going to
love everyone of you. Don
love you as I know I will.

Love Always,
Don & Manda
